

# Project 2

Jake Carlson

October 4, 2017

## **Abstract**

Classification on federal payroll data.

# Contents

1	Business Understanding	3
2	Data Preparation	3
3	Modeling	3
4	Evaluation and Deployment	3

## **1 Business Understanding**

Goals, scope, related attributes.

What could be done with these models?

## **2 Data Preparation**

Cleaning, features removed/created.

## **3 Modeling**

5 classification methods, advantages and disadvantages, most important features, performance.

What are the differences across time and between agencies?

## **4 Evaluation and Deployment**

Are these models useful for solving the problems outlined in the business understanding?
